

VISTARA CONNECT

**THE OFFICIAL DIGITAL PLATFORM OF
VISTARA STUDENT CLUB**

EXECUTIVE SUMMARY

Vistara Connect is a comprehensive full-stack web application developed as the Official Digital Platform of the Vistara Student Club. The platform aims to digitally transform the club's administrative and operational activities by integrating a professional public website with a secure, role-based club management system.

It centralizes all club operations into a single platform, eliminating the need for multiple spreadsheets, messaging applications, and manual documentation.

The system provides a modern and efficient solution for managing members, organizing events, maintaining galleries, publishing news, and automating administrative processes.

It introduces a structured workflow where the President creates events, Sub-Club Secretaries select participants from their respective clubs, and the President or Vice President generates official On-Duty (OD) forms.

The platform also includes an automated Membership ID generation system and printable membership cards for all approved members.

Through role-based access control, each user is provided with permissions based on their responsibilities, ensuring secure data management and efficient collaboration.

The public website showcases the club's achievements, upcoming events, sub-clubs, galleries, sponsors, and latest news, strengthening the digital identity of the organization.

Designed with an Apple-inspired minimal user interface and the official Vistara purple branding, the application delivers a modern, responsive, and user-friendly experience across all devices.

By replacing manual workflows with an integrated digital ecosystem, Vistara Connect improves operational efficiency, enhances communication, reduces administrative workload, and establishes a scalable platform capable of supporting the future growth and digital transformation of the Vistara Student Club.

PROBLEM STATEMENT

Currently, many student clubs rely on manual processes for managing members, organizing events, maintaining records, and preparing official documents. These methods often result in:

- Member information scattered across spreadsheets.
- Difficulty tracking active club members.
- Manual preparation of On-Duty forms.
- Manual creation of membership cards.
- Poor coordination between club executives.
- No centralized event management.
- Limited public visibility of club activities.
- Time-consuming communication and documentation.
- Lack of a professional online presence.

As the Vistara Student Club continues to grow, these manual workflows become increasingly inefficient and difficult to manage.

PROPOSED SOLUTION

Vistara Connect addresses these challenges by providing a centralized digital ecosystem that combines:

- Official Club Website
- Member Management
- Event Management
- Role-Based Administration
- Gallery Management
- News & Blog Publishing
- Membership Card Generation
- On-Duty Form Generation
- Club Documentation
- Notification System

The platform separates public-facing content from internal club operations while ensuring secure access through role-based permissions.

PROJECT OBJECTIVES

The primary objectives of Vistara Connect are:

- Digitize the complete workflow of the Vistara Student Club.
- Reduce manual administrative work.
- Improve collaboration among club executives.
- Maintain an organized database of club members.
- Simplify event planning and participant selection.
- Automatically generate official club documents.
- Provide a professional online identity for the club.
- Improve communication between executives and members.
- Create a scalable system that can support future club growth.

TARGET USERS

The platform is designed for five primary user groups.

PUBLIC VISITORS :

Visitors can browse the official website to learn about the club, view upcoming events, explore galleries, read news, and discover various sub-clubs.

No login is required.

SUPER ADMINISTRATOR:

The Super Administrator has unrestricted access to the entire system.

Responsibilities include:

- System configuration
- User management
- Database administration
- Role management
- Complete platform maintenance

PRESIDENT :

The President oversees the entire club management system.

Responsibilities include:

- Creating events
- Publishing events
- Managing announcements
- Viewing all members
- Generating Membership Cards
- Generating On-Duty Forms
- Managing website content such as News, Sponsors, and Contact Information
- Reviewing member removal requests

VICE PRESIDENT :

The Vice President assists the President by sharing responsibilities related to website management and event administration.

Responsibilities include:

- Creating events
- Publishing events
- Managing News & Blogs
- Managing Sponsors
- Updating Contact Information
- Generating On-Duty Forms

SUB-CLUB SECRETARIES :

Each of the seven sub-clubs has its own secretary.

Sub-clubs include:

- Dance
- Music
- Media
- Tech
- Compering
- Fashion
- Art

Each secretary is responsible only for members belonging to their assigned sub-club.

Responsibilities include:

- Adding new members
- Updating member information
- Selecting participants for events
- Requesting member removal
- Managing their club's activities

The **Media Club Secretary** has an additional responsibility:

- Uploading event galleries and media content.

WEBSITE STRUCTURE

The public website introduces the Vistara Student Club while highlighting its activities.

The homepage includes:

- Hero Banner
- About Vistara
- Club Statistics
- Upcoming Events
- Latest News
- Testimonials
- Contact Section
- Social Media Links
- Sponsors
- Footer

Additional pages include:

- Events
- Event Calendar
- Gallery
- News & Blogs
- Sub Clubs
- Projects
- Team
- Recruitment Information
- Contact

CLUB MANAGEMENT WORKFLOW

EVENT CREATION :

The President or Vice President creates an event by entering:

- Event Name
- Event Description
- Event Date
- Start Time
- End Time
- Venue

The system automatically generates:

- Event ID
- Creation Timestamp
- Last Updated Timestamp
- Event Status

Initially, events remain private until they are published.

PARTICIPANT SELECTION :

Once an event is created:

Each Sub-Club Secretary receives a notification.

The secretary can only view members belonging to their own sub-club.

Participants are selected using checkbox-based selection.

After submission, the President receives the finalized participant list from every sub-club.

ON-DUTY FORM GENERATION :

The President or Vice President can generate an official On-Duty document only if an upcoming event exists.

The generated document includes only the selected participants.

This removes the need for manual preparation of attendance and OD documents.

MEMBER MANAGEMENT

Membership begins after the club's recruitment process is completed using an external Google Form.

Only selected students are added into Vistara Connect.

For every member, the system stores:

- Full Name
- Profile Photo
- Register Number
- Department
- Year
- Section
- Mobile Number
- Email
- Gender
- Date of Birth
- Position
- Assigned Sub-Club

Each member belongs to only one sub-club.

The system automatically generates a unique Membership ID.

MEMBERSHIP CARD GENERATION

Membership cards are generated using a predefined template.

Dynamic information includes:

- Member Name
- Membership ID
- Sub-Club Name

The President can download individual or bulk printable PDFs for newly added members.

NOTIFICATION SYSTEM

The system provides notifications for important club activities, including:

- New event creation
- Participant requests
- Member removal approvals
- Membership updates
- Gallery uploads
- Website updates

GALLERY MANAGEMENT

Only the Media Club Secretary and the President can upload media.

Gallery items are organized by event and displayed publicly on the website.

CONTENT MANAGEMENT

The dashboard allows the President and Vice President to manage:

- News & Blogs
- Sponsors
- Contact Information

Other website sections remain developer-controlled to preserve design consistency.

PERMISSION MATRIX

Feature	Super Admin	President	Vice President	Sub-Club Secretary	Public
Manage Website	✓	✓	✓	✗	✗
Create Events	✓	✓	✓	✗	✗
Publish Events	✓	✓	✓	✗	✗

DESIGN PHILOSOPHY

The application follows an Apple-inspired design language featuring:

- Minimal interface
- Purple brand identity
- Clean typography
- Spacious layouts
- Rounded corners
- Responsive design
- Elegant animations
- Professional dashboards
- Modern user experience

EXPECTED BENEFITS

Implementing Vistara Connect will:

- Reduce administrative workload.
- Eliminate repetitive manual tasks.
- Improve collaboration.
- Provide accurate member records.
- Automate official document generation.
- Strengthen the club's digital identity.
- Increase transparency.
- Improve event organization.
- Create a scalable platform for future club activities.

CONCLUSION

Vistara Connect is envisioned as much more than a conventional website; it is a comprehensive digital management platform developed exclusively for the Vistara Student Club.

The platform combines a modern public website with a secure role-based administrative portal, creating a unified environment for managing all club activities efficiently.

By centralizing member management, event planning, gallery management, announcements, and official documentation, the system significantly reduces manual effort and improves organizational productivity.

Its structured workflows ensure that every club executive performs responsibilities according to their designated role, promoting transparency, accountability, and effective collaboration.

The platform automates essential administrative tasks such as Membership ID generation, Membership Card creation, participant selection, and On-Duty (OD) form generation, minimizing repetitive work and reducing the possibility of human error.

The integrated public website strengthens the digital identity of the Vistara Student Club by showcasing its achievements, events, projects, sub-clubs, and activities to students, faculty, alumni, sponsors, and visitors.

Built with a modern Apple-inspired user interface and the official Vistara purple branding, the application delivers a professional, responsive, and user-friendly experience across multiple devices.

Its modular architecture, secure role-based access control, and scalable design ensure that the platform can adapt to future technological advancements and organizational requirements.

As the club continues to grow, Vistara Connect will serve as a reliable digital ecosystem capable of supporting larger memberships, additional features, and more complex workflows without compromising performance or usability.

Ultimately, the successful implementation of Vistara Connect will modernize the club's operations, strengthen communication, enhance administrative efficiency, and establish a sustainable digital foundation that supports the long-term growth, innovation, and success of the Vistara Student Club.
